CAREER SUMMARY

Software Engineering undergraduate with strong **problem-solving skills**, solid **computer science fundamentals**, and hands-on experience building **scalable full-stack systems**. Proficient in **Data Structures & Algorithms, Object-Oriented Programming**, and modern web technologies. Seeking an opportunity to contribute to reliable, production-grade systems.

EDUCATION

B.Tech in Computer Science and Engineering With Specialization in (AI&ML) **2023 - 2027**
B.N.College of Engineering and Technology, Lucknow CGPA: **8.25/10**

Senior Secondary Education **2021 - 2023**
Guru Nanak Inter College Lakhimpur(Kheri) Class 12: **82%**, Class 10: **80.16%**

WORK EXPERIENCE

Python Full Stack Developer Trainee — SoftPro India **Feb 2026 – Present** | Lucknow, India

- Developed responsive web applications using **Python and Django**, following structured MVT-based application architecture.
- Built dynamic web pages using **Django Templates** and integrated frontend components with backend functionality.
- Implemented database-driven features using **Django ORM and MySQL**, including data modeling and application-level database interactions.
- Developed **user authentication and authorization** workflows to manage secure access to web application features.

TECHNICAL SKILLS

Programming Languages:	Python, Java, C, JavaScript (ES6+)
Core CS Fundamentals:	Data Structures & Algorithms, Problem Solving, OOP, DBMS, OS, Debugging
Frontend Technologies:	React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend:	Python, Django, Django ORM, REST APIs (Basics), Authentication & Authorization
Databases:	MySQL, SQLite
Supporting Tools & Skills:	Git & GitHub, VS Code, Jupyter, Postman
Concepts:	MVT Architecture, CRUD Operations, Exception Handling, Version Control

PROJECTS

e-Gyan – Learning Management System GitHub | Sep 2026

- Developed a full-stack **Learning Management System** using **Python, Django, HTML5, CSS3, JavaScript, Bootstrap, and SQLite3**.
- Implemented **Admin and Student authentication** with login, logout, password change, session management, and cache-control.
- Developed modules for **Student Management, Study Material, Discussion Forum, Complaint, Feedback, News, and Enquiry**.
- Implemented **database-driven features** using Django and SQLite3 to manage students, learning materials, questions, feedback, and enquiries.

Responsive College Website GitHub | Live Appril 2026

- Developed a fully **responsive college website** using HTML5, CSS3, JavaScript, and Bootstrap.
- Designed and implemented a modern user interface featuring a responsive **navigation bar, hero section, academic programs**, faculty, events, and **contact sections**.
- Built interactive frontend components with **a mobile-first** approach to ensure a seamless experience across **desktop,** tablet, and **mobile** devices.
- Followed clean, **reusable**, and **maintainable** coding practices to deliver an intuitive and **user-friendly** website

Movie Recommendation System GitHub | Dec 2025

- Built a movie recommendation system using **content-based filtering** techniques in Python.
- Performed data **preprocessing** and **feature extraction** on movie metadata and user ratings to improve recommendation quality.
- Applied **cosine similarity** to generate personalized movie recommendations based on user preferences.
- Implemented an **end-to-end** machine learning pipeline including **data loading**, **model training**, and inference

COMPETITIVE PROGRAMMING & ACHIEVEMENTS

- Solved **340+ LeetCode problems** demonstrating strong algorithmic thinking and problem solving skills.
- Participated in Ideathon at BNCET .

LEADERSHIP & COMMUNICATION

- Served as Technical Head – GDG AI & ML team, leading technical initiatives, project planning, and knowledge-sharing sessions .
- Strong communication skills demonstrated through debates, presentations, and technical discussions.
